

My name is Katie Baca, I grew up in Albuquerque, New Mexico and currently live in Missoula, Montana. I recently completed a PhD in forensic anthropology and am thrilled to now be able to finish my Associate's in mortuary science with the help of the ABFSE! In my spare time, I enjoy riding horses, cross-stitching, and spending time with my husband and our two dogs. I currently work as a cremation technician and I plan to stay on with this funeral home as a mortician once I finish school and am licensed.
